

# Account Setup Guide

## 1. Add farm fields.

- a. While adding fields to the farm, you will also be able to save the current crop and irrigation system's information, for each field.
- b. [Here is a short video on how to quickly add farm fields.](#)

## 2. Add or import farm tasks.

- a. To quickly add farm tasks in your account, [I recommend using the task's template.](#) Just change or add a new task to the downloaded file and import it.
- b. [Here is a short video demonstrating on how to add or import farm tasks into your account.](#)

## 3. Add Irrigation water sources.

- a. If you are planning to track irrigations for your crops, you will need to add irrigation water sources in your account first.
- b. [Water source adding is easy, here is a short video on how to do that.](#)

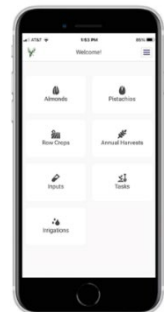

## 4. Add harvest methods.

- a. AgNote provides a lot of flexibility on how you can record your harvested yields.
- b. [Here is a video demonstrating on how to add a Harvest Method to your account.](#)

## 5. Access AgNote on mobile device.

- a. Just add AgNote's shortcut to your phones Home Screen, that's all!
- b. [Here is an instruction video on how to add AgNote's PWA mobile application on your phone's Home Screen.](#)

[Here you can access all Account Setup videos.](#)
